

CAPABILITY STATEMENT

Who We Are

For nearly a decade, the OTS team has been working side by side with federal customers to design infrastructure, applications, and processes that are efficient, redundant, scalable, and cost-effective. OTS combines our understanding of government business challenges with deep experience across a broad spectrum of technical disciplines. Using an ingrained sense of mission objectives and project requirements, we meticulously craft the right solution for every customer.

Optimized Technical Solutions

Cutting Edge **Technology**
Trusted **Performance**

Our Expertise

Managed M365 Services

- Exchange, Sharepoint, Teams Support
- PowerBI, PowerApps, Power Automate Development

Oracle Solutions

- E-Business Suite (EBS) Financials Support
- Oracle Cloud Infrastructure (OCI) Architecture

Cloud DevSecOps

- AWS, Microsoft Azure, Oracle Cloud Infrastructure
- CI/CD, Containerization, Serverless Architecture

Software Development

- Development Lifecycle Tools and Processes
- Software Integration and Test

Cybersecurity

- Security Assessment & Risk Mitigation
- DevSecOps Focused Application Security

The OTS Advantage

- We're dedicated to improving business processes with technology. Our expertise and efficiency will reduce the Total Cost of Ownership for your program's applications and infrastructure.
- We invest in cutting-edge technologies to ensure that our organization always lives at the forefront of innovation.
- Our strategic partnerships provide access to major GWACs including STARS III, VETS 2, SBEAS, CIO SP3, & SEWP

Performance Profiles

U.S. Air Force BES Atlassian Tool Suite - Maxwell/Gunter AFB

OTS manages the BES Atlassian Tool Suite (BAT), supporting a 3000+ user base. Support includes architecting serverless infrastructure, IAC development, Pen Testing and CVE remediation, and development of automation of regular tasks. Migration of the Atlassian suite to an ECS Fargate-based containerized technology has **significantly lowered infrastructure costs and decreased application deployment time by 50%**

U.S Air Force Enterprise Resource Planning Common Services (ERP CS) - Wright Patterson AFB

Team OTS is performing Oracle ERP architecture and buildout in Cloud One as BES prepares to migrate DEAMS, MROi, and AFIPPS production workloads to Oracle Cloud Infrastructure (OCI). Our team of Oracle SME's provides exceptional support for ERP-CS for **less than half the price of OEM vendor quoted support rates.**
