CUTTING EDGE TECHNOLOGY

Transforming Legacy Systems into Secure, Modern Architectures

- We leverage technology to **modernize and automate complex federal systems**, **strengthening mission performance** while **reducing total cost** of ownership across applications and infrastructure.
- We **invest in proven and emerging platforms**—Oracle, Salesforce, and multi-cloud DevSecOps architectures—to keep OTS at the forefront of secure, scalable innovation.
- Our **prime logistics experience**, **deep DoD enterprise expertise**, and **strategic contract vehicles**—provide agencies with direct, efficient access to mission-ready modernization capabilities.

CLIENT PORTFOLIO

Department of Defense

- U.S. Air Force
 - Air Force Business Enterprise Systems (BES)
 - Air Force Enterprise Resource Planning Common Services (ERP CS)
 - Air Mobility Command (AMC)
 - Global Force Management–Data Initiative (GFM-DI) Program Management Office

Major Air Force Installations Supported

- Davis-Monthan Air Force Base, AZ
- Maxwell/Gunter Air Force Base, AL
- Wright-Patterson Air Force Base, OH
- Scott Air Force Base, IL
- Travis Air Force Base, CA

PARTNERS & CERTIFICATIONS

WHO WE ARE

Optimized Technical Solutions (OTS) brings **deep, hands-on experience across the federal landscape**, supporting **complex enterprise systems that power missions in defense, logistics, human resources, and finance**. Our team has worked within some of the **government's largest and most critical IT environments**, giving OTS an uncommon understanding of how to modernize legacy systems and strengthen interoperability at scale. Grounded in technical precision and mission awareness, we deliver **measurable improvements in efficiency, risk reduction, and total cost of ownership**—helping agencies operate with **greater speed, reliability, and security**.

PAST PERFORMANCE

U.S Air Force BAT (BES Atlassian Toolset) – Maxwell/Gunter AFB

- Optimized Technical Solutions manages the Air Force Business Enterprise Systems (BES) Atlassian Toolset (BAT), supporting a 3,000+ user enterprise environment hosted in AWS GovCloud within the Cloud One boundary. OTS provides end-to-end DevSecOps and platform support, including infrastructure architecture and sustainment, Infrastructure as Code (IaC), CI/CD automation, functional user support, cybersecurity remediation, and ongoing automation across server-based and serverless architectures.
 - **Tools & Technologies:** AWS Cloud, CloudOne, DevSecOps, CI/CD Pipeline, Docker Containers, Terraform IAC, Jenkins, Jira, Confluence, Bitbucket, EC2, ECS, Fargate, Serverless, Lambda, CVE Remediation, Pen Testing Remediation, Trivy Container Scanning, RDS, Artifactory, GIT, Checkmarx, STIG's

U.S Air Force Enterprise Resource Planning Common Services (ERP CS) – Wright Patterson AFB - ANR

- Team OTS supports the U.S. Air Force ERP Common Services (CS) Program by architecting Oracle ERP environments within Cloud One to enable migration of AFIPPS, DEAMS, and MROi workloads to Oracle Cloud Infrastructure (OCI). OTS delivers standardized, secure engineered environments and integrated business and technical services across systems engineering, cloud strategy and migration, operations, risk management, and program management, with a focus on efficiency and customer-driven outcomes.
 - **Tools & Technologies:** Oracle Cloud Infrastructure (OCI), Project Management, Agile, Roadmaps, ERP's, Cloud Strategy, Cloud Migration, Cloud One, DevOps.

U.S Air Force Enterprise Resource Planning Common Services (ERP CS) – Wright Patterson AFB - ANR

- Team OTS supports the U.S. Air Force ERP Common Services (CS) Program by architecting and building Oracle ERP environments within Cloud One to enable the migration of AFIPPS, DEAMS, and MROi production workloads to Oracle Cloud Infrastructure (OCI). OTS delivers standardized, secure engineered environments and provides integrated business and technical services spanning systems engineering, cloud strategy and migration, operations, risk management, and program support, with a focus on efficiency, usability, and customer-driven outcomes.
 - **Tools & Technologies:** Oracle Cloud Infrastructure (OCI), Project Management, Agile, Roadmaps, ERP's, Cloud Strategy, Cloud Migration, Cloud One, DevOps.

Remote Manifesting Resolution Center (RMRC) – Scott AFB

- OTS provides functional, technical, and project management support for the Remote Manifesting Resolution Center (RMRC) supporting Air Mobility Command (AMC) A4TI. Support includes developing and sustaining mission-essential web applications, integrating with legacy systems and databases, and performing .NET and SQL-based development to maintain and enhance A4T operational systems.
 - **Tools & Technologies:** Software Development, Custom SharePoint development

U.S. Air Force GFM-DI PMO Support – Maxwell/Gunter AFB

- OTS provides program management, cybersecurity (ISSM), test management, and configuration management support to the Global Force Management–Data Initiative (GFM-DI) PMO. Support includes schedule and risk management, stakeholder coordination, and program documentation, along with RMF execution in eMASS, POA&M management, C5ISR and code security reviews, ATO support, and test traceability and defect reporting for mission-critical systems.
 - **Tools & Technologies:** Confluence, SharePoint, Jira (Kanban), eMASS/RMF (Rev 5), Checkmarx, C5ISR, PMRT, IMS, FDD/Test artifacts (ITD/ITR/Traceability).
